FRUIT TREES

Delivery Yard of **KIRKMAN NURSERIES** ready
for your business at corner of N. Center and Van
Buren streets.

Many varieties supplied from our new nursery
North of Phoenix. Others shipped direct from our
Main Nursery Plant at Fresno, Cal., where we grow
the largest quantities of the leading commercial var-
ieties on the Pacific Coast.

Kirkman trees have been standard for reliability in
California for nearly thirty years. We wish to serve
the planters here as they have in California. We
believe that the horticultural future of Arizona is
bright indeed, and we intend to do our part in prop-
agating and distributing high class nursery stock
of the right varieties to help bring horticulture to
the first place in the industries of Arizona.

ANCHOR TRUST INCORPORATED

Big Wichita Institution Se-
cures License to Transact
Business in Arizona —
Will Have Branch Office
With Central Bank

Coincident with the opening of the
Central Bank of Phoenix, The Anchor
Trust Company of Wichita yesterday
filed its papers with the corporation
commission and secured a license to
transact business in Arizona. Judge
Richard E. Sloan, counsel for the in-
stitution here, is named as the com-
pany's agent in this state.

The Anchor Trust Company, a
branch of which will be operated in
connection with the new Central
Bank, was incorporated under the
laws of Kansas in 1892 and is backed
by practically the same parties who
are interested in the new bank. It
is one of the strongest institutions of
its kind in the west and has built up
a large clientele of satisfied custom-
ers in that section of Kansas where
for years it has been operating.

The new branch, which will be un-
der the personal direction of P. K.
Lewis, president of the company, will
handle loans and mortgages on first
class city and country property in
the Salt River Valley, entering a field
in which there are large opportuni-
ties in this section. Its establish-
ment means that there will be more
money available for development pur-
poses, and with the large increase in
the stored water supply, the opening
comes at an auspicious time.

"Phoenix ought to have another
"going up" celebration," said a promi-
nent business man yesterday. "The
reservoir at Roosevelt is almost up
to the high water mark and there is
an abundance of water in sight for
the coming summer. Now in addi-
tion we have another strong banking
institution backed by plenty of capi-
tal, and the branch office of one of
the strongest trust companies of
Kansas establishing here. Going up?
I should say so."

Roosevelt District

Miss Elizabeth J. Richards, who has
lately built a cottage for herself just
east of Roosevelt's store has organized
a class in Spanish. There is more
room for members and the charge for
instruction is a nominal one. The
class meets twice a week at her
home. Miss Richards comes to us
from Albuquerque where she has been
in missionary work with both Indi-
ans and Mexicans in the employ of
the government.

Mrs. K. S. Townsend is doing nicely
at the hospital where she probably
will be confined for a couple of
weeks longer.

A committee of ladies from the
Neighborhood club, including Mrs.
Jefferson, Mrs. Wheeler, Mrs. Roeser,
Mrs. Ryder and Mrs. Archer, met at
the home of Mrs. J. R. Wilson on
Tuesday of last week and tied the
new year books with the colors of
the society.

Nearly all of the classes of the
Sunday school have been organized
under the direction of Mrs. Roy Da-
vidson, class organizer. The senior
class elected the following officers
last Sunday: President, J. R. Wil-
son; vice president, R. W. Davidson;
secretary treasurer, H. E. Austen. The
class expects to do organized work
along the line of getting new mem-
bers, visiting the sick, and assisting
in various good causes.

The movement has been started in
the Sunday school for the raising of
funds for the suffering Belgians. The
various class organizations will each
contribute their share toward the
general fund which will be turned
over to the county or state commit-
tee.

The meeting of the home depart-
ment of the Sunday school under the
leadership of Mrs. Price, which was

to be held at the Neighborhood House
yesterday was postponed indefinitely
on account of the rain. This depart-
ment is doing very effective work in
interesting people in the work of the
Sunday school who could not easily
be reached in any other manner.

The members of the cradle roll de-
partment with their babies were in-
vited to Mrs. Lassen's last Wednes-
day for a social afternoon. The at-
tendance was small but the ladies
present had an excellent time.

There are a number of families who
have recently moved into the com-
munity. Watch this space next week
for their names and locations.

Prayer meeting this week was held
on Tuesday night instead of Wednes-
day and was led by P. R. Wilson, the
subject being, "The Promise of the
Bible."

Birthdays are occurring rapidly in
the Gould family of late. In the
early part of last week, Marjorie
Gould entertained a number of her
friends in honor of her eighth birth-
day and on Saturday night Frank
Gould celebrated the sixteenth anni-
versary of his advent with sixteen of
his friends at his home. The young
people enjoyed the taffy pull im-
mensely.

Cooks the poet of Nineteen Hundred
and Now will read his own writings in
his own way at the high school audi-
torium, association course. You short-
en your life if you miss hearing him.—

**JANUARY GAIN IN LAKE
WAS 210,312 ACRE FEET**

Twenty-Two Feet Added to Height of
Water Behind Roosevelt Dam by
Storms of Last Month

With what was left of the good De-
cember rain, and what happened to
pour in during the early days of the
last big storm, gave to the Salt River
project a record storage of 210,312 acre
feet during the month of January.
This is part of an official report, given
out by the United States reclamation
service, yesterday.

The rise in elevation of the surface
of the lake was 22.02 feet.
Water is still running into the reser-
voir to the amount of about 15,000 acre
feet a day. The altitude yesterday was
but four feet below the record of 1912,
the highest the lake has ever been,
when the gauge stood at 179.32 feet.

The regular weekly meeting of the
Woman's Christian Temperance Union
will be held on Thursday afternoon at

First of all

put one right over the fence and score
for yours truly via Prince Albert, tobacco
that made three men smoke a pipe today
where one smoked before, and put new
notions into men who know what a real
makin's cigarette can taste like!

Why, to fire up a jimmy pipe packed
with P. A. or to pull on a P. A. makin's
cigarette is just about, just about! Never
was such tobacco, because no other to-
bacco can be made like

**PRINCE
ALBERT**

the national joy smoke

Sooner or later you'll go to this wonder-
smoke as little apples grow on trees. Just
can't help it, like! P. A. is so good and
true, such chummy tobacco, that men
just go happy about it. You get it into
your system without losing any more
time that you'll strike 18 kt. gold just as
soon as you fire up a jimmy pipe or roll
up a makin's cigarette with P. A.

Also, get these few remarks: Prince
Albert is produced by a patented process
that cuts out the bite and the parch.
Prove that at the cost of a dime before
you do the next thing!

Also, nail this: Just you be game enough
to lay a dime against a tidy red tin—and
cheer-up your smokappetite!
